

# RADIOS, ACCESSORIES FOR CLASSICS, CUSTOMS, STREETRODS

2012 CATALOG

# Custom Autosound Mfg. Since 1977

Thank you, for your continued support and business! Custom Autosound, the originator (1977) of classic vehicle audio is growing with a staff of over 30 and

more than 1500 great dealers. We are eternally grateful for your loyal support.

## CHALLENGES - SOLUTIONS

We are proud to introduce our new Secretaudio SRMS. This new hideaway audio system is specifically designed and manufactured for classic special interest vehicles or any vehicle that is 12 volt. We have changed the control on the SRMS to be completely wireless and it still includes all the features that customers have asked for including iPod interface, USB flash drive, direct satellite tuner control, 'RF' remote control, direct CD changer control, aux input, RCA pre-outs and subwoofer out for optional amplifiers. See the facing page for full features! Our SST Secretaudio is also still available.

Our main offering is the CONCOURS series of radios. These radios are designed and engineered specifically for classics and streetrods. Our radios come ready to install with no assembly required. All radios are modified, 'kitted' and tested in the USA. We have such confidence in this new series of radios we now offer a 2 year warranty. All Concours radios feature electronic volume and tuning control which greatly increase the reliability and functionality of the units. For icing we upped the power on all of our units (up to 240 watts) to give your customers the power they want.

Since iPods, MP3 players and satellite radio have taken off in the last few years we now offer auxiliary input on our radios. Our USA-630 model even has a built in USB port for flash drive playback of MP3/WMA files with an alpha numeric display for song titles and artist name on MP3/WMA files.

Our CD Controller radios will operate all functions of the optional USA-CD60 (6 disc changer) or iCAMKIT (iPod interface) from the buttons on the face of the radio. Other companies have offered what they call CD control shaft style radios but they use FM modulation (CD plays through a FM radio signal) and a separate control panel to operate the CD changer. We do not use FM modulators or separate control for two important reasons. By using FM modulation the sound quality of CD is no better than FM radio. Using a separate controller for the CD changer creates the problem of hiding the extra wires and control panel, sometimes not an easy task in a classic vehicle.

**All Concours radios are assembled, converted and tested here in the USA. They are designed to fit directly into your customers dash with no other assembly required!**

# SECRETAUDIO

STEALTH SOUND TECHNOLOGY

## NEW PRODUCTS

**NEW**

New addition to the award winning Secretaudio line from Custom Autosound!

Now you have two options for operating your Secretaudio System

Secretaudio SRMS has all the features of the Secretaudio SST plus a completely wireless RF remote LCD controller. All functions are shown on and controlled by the hand held RF controller/LCD.

### Secretaudio SRMS Completely Wireless LCD Display/Controller

**INTRODUCTORY  
OFFER:**  
Comes with a  
sample USB Flash  
Drive that contains  
operating  
instructions and  
sample music files.  
While supplies last!

Hideaway 200 Watt AM/FM CD Controller with USB MP3/WMA Flash Drive, iPod

control, CD Control, Satellite Radio Control. Featuring 'RF' (radio frequency) remote control. Ideal for Streetrods, Classics, Customs or any Vehicle! Leave original radio intact! LCD display/control unit can be mounted almost anywhere and be controlled by wireless remote from up to 40 feet away. Or with the new SRMS model the LCD display/control is in the palm of your hand. The tuner/amplifier unit can be hidden out of sight (under seat or dash). The SST model comes with 10' cable from LCD panel to tuner/amp and comes with two mounting options included (Flush mount bezel, and a swivel mount bracket).

We have even included the iPod docking cable (iPod not included).

Again the SRMS LCD does not have to be mounted.

You have full control from anywhere near your vehicle.

#### Secretaudio Features:

- Ⓜ Wireless Remote Control w/ Up to 40' Range  
No Line Of Sight Required
- Ⓜ 200 Watt AM/FM Stealth Audio Solution (50w x 4)
- Ⓜ USB MP3/WMA Flash Drive Player
- Ⓜ Alpha Numeric LCD Display  
Shows Artist / Song Titles on iPod / USB / Satellite
- Ⓜ Direct iPod® Audio Interface and Control (iPod Cable incl.)
- Ⓜ Satellite Radio Direct Connection (Sirius Tuner Optional)
- Ⓜ Direct CD Controller (1/2 DIN CD OR 6 Disc Changer Optional)
- Ⓜ Auxiliary Input For Connection of Portable Players
- Ⓜ 4 Channel 3V RCA Pre-Outs
- Ⓜ Subwoofer Pre-out
- Ⓜ 4 Way Fader
- Ⓜ 5 Selectable EQ Curves - Pop/Jazz/Classic/Beat/Rock
- Ⓜ Zero Memory Current Draw (no car battery drain when not in use)

## USA-66

A CUSTOM MADE REPLICA OF  
THE 1966 Mustang  
AM-FM OPTION  
(WITH ADDED FEATURES)

### Perfect Fit for '64½ - '66 Mustang & '64 - '65 Falcon (Standard Interior)

Now a radio that not only looks right and sounds great in your classic Mustang, it also gives you a direct connection to today's audio gadgets.

Features: • Manual Tuning AM/FM stereo tuner • Auxiliary input for iPod®, MP3, DVD, satellite radio, etc. • Controls optional 6 disc CD changer or iPod® interface from the buttons on the radio. (NO FM modulation.) • Metal plated knobs and nose piece/buttons • 200 Watts provides plenty of power even for convertibles.

• 4 Channel RCA pre-outs for optional amplifier • Comes with removable laminated label for individual button functions. Push-buttons operated CD/iPod® & Aux input functions (no radio pre-sets.) Once you become familiar with the button features remove the labels to get that OEM look you want.

- AM/FM Manual Tune (no radio pre-sets)
- Balance & Fader Control
- Direct CD Controller
- 4 Channel RCA Pre-Outs, For More Versatility

- 200 Watts
- Auxiliary Input for iPod, Satellite, or Other Player
- Separate Bass & Treble Controls

## DVC SPEAKERS

Our new dual voice coil (DVC) speakers will give you the best quality sound possible from your original mono speaker location. These speakers have up to 70% more cone area than the conventional dual speaker setup giving you improved bass response and 140 watt power handling. Both stereo channels connect directly to one speaker. This is the best sound solution for the original speaker location we have found.

**Available in 6"x9", 5"x7", 4"x10" and 5"**(perfect fit for VW dash speaker)

## DUAL FRONT SPEAKERS

Our dual dash speakers provide stereo sound from factory mono speaker locations. We offer 38 different configurations available for most classic cars and trucks. The 1000 series speakers replace 'OEM' speakers that are held in place by screws. The 2000 series speakers replace 'OEM' speakers that are held in place by a metal bracket. These assemblies are pre-wired to 'plug in' instantly to our radios. Choose from Custom Autosound speakers or try our Kenwood speaker upgrades.

**Please see application chart for your vehicle.**

If your **1955-56 Chevy Belair** doesn't have the original bracket for the dash speaker this unit will enable you to install a new speaker. Speaker not included. Part# **BRACE**

1000 Series Speaker

2000 Series Speakers (bracketed)

1969/'70 Mustang and Cougar radios support bracket. This bracket is crucial in mounting the radio as the radio is held by this bracket and not the dash. Our tech department has received numerous calls from frustrated installers trying to install a radio in a '69 or '70 Mustang or Cougar without this bracket. Part# **MS BRACKET**

## USA-CD

### 6 DISC CD CHANGER

WORKS WITH USA 5, USA-6, USA 630,  
USA-66 and Secretaudio

MANUFACTURED AFTER 4/03

Operates from the buttons on the USA-5,  
USA-6, USA-66, USA-630 and Secretaudio  
radios. 1 Bit 8x times oversampling. Twin  
digital-to-analog converter. 3-Beam laser tracking.  
Disc select up/down. Track up/down. 2-Way  
scan and shuffle. Play and pause control. Program  
repeat. Anti-shock and vibration free  
design. Designed for horizontal, vertical or

### New Slim Size Half DIN CD/DVD-Player

- Ⓜ Plays CD/CD-R/CD-RW/DVD audio/WMA/MP3
- Ⓜ Small enough to hide  
under the seat or in glovebox
- Ⓜ ESP Electronic Shock Protection
- Ⓜ Repeat/ Program/Random/Intro Function
- Ⓜ Multi-Angle Playback
- Ⓜ Last Position Memory

## NEW - Compact Design 6 Disc CD Changer

**CD1 1/2 DIN  
Single CD/DVD MP3**

**Direct Control from the USA-630,  
USA66 and Secretaudio Systems**

## iCAMKIT

iPod® interface for Custom Autosound CD controller radios (USA-5, USA-6, USA-630 and USA-66 manufactured after 4/03 - units designed for CAM CD changer.) Connects to: 8-PIN DIN at Headunit.

### Features:

- Compatible with iPod bottom dock connector.
- Power on automatic play function and power off automatic pause.
- Automatic pause when switching to FM, AM, CD, or TAPE.
- Keeps your iPod charged at all times.
- Direct connection with CD-quality sound.
- 1/8" stereo jack for other auxiliary input.
- Use your radio unit to change songs or fast forward and rewind.
- Supports up to 9 play lists in "play list mode."

This adapter will give you the best possible sound from your iPod while playing through your car stereo. Simply plug the iCAMKIT into the CD changer port on the back of your Custom Autosound radio and plug in your iPod. The unit will turn on, turn off and charge your iPod. Song selection is made with the CD control buttons on your Custom Autosound radio and includes playlist selection and random song selection. The iCAMKIT can be used with or without the Custom Autosound CD changer. If your iPod is not connected the iCAMKIT can still be used to input audio from an external device (satellite radio, portable CD, etc.) via the 1/8" stereo plug. iPod not included Model# **iCAMKIT**

## BACKSEAT DRIVER

Add some bottom end power to your system with our NEW custom bass speaker panel. This panel comes equipped with two Custom Autosound 8" subwoofers and the Boss 400 watt amp. Panel mounts to the back of the rear seat from the trunk. All cables & wires needed are included for a quick and easy install! Available for:

Year/Model	Part#
'67-'70 Camaro	BSD-CAM-68/0
'68-'72 Chevelle	BSD-CHL-68/2
'65-'69 Mustang	BSD-MS-65/9
'55-'57 Chevy	BSD-VECH-5/7
'64 Impala.	BSD-IMP64

## SOUNDBAR

A great sound solution. Designed to fit any overhead, or against rear horizontal panel of your '63 - '82 Corvette. Only 3" deep with two 4" speakers, two mid range and two tweeters. 200 watt power handling!

Part# **SOUNDBAR-CV**

# SPEAKERS

## KICKPANEL SPEAKERS

You can now enhance sound quality with Custom Autosounds new kickpanel speaker assemblies! These new kicks sound great, enhance interior appearance and affords a "no modification" fit. Most models feature 6½" coaxial (2-way) speakers with 100 watt power handling capacity (Some GM models have 4" or 4"x6" 60 watt speakers). All 'kicks' can be upgraded with Pioneer 6½" coaxial 120 watt speakers (Some GM models have 4" or 4"x6" 100 watt speakers.) Kickpanels come in black ABS plastic and are sold with or without speakers (except Chevelle/Nova/Camaro NO/AC models sold with speakers only.)

## UNDERCOVER SPEAKERS

### UNDERCOVER1 Speaker Enclosures

Custom Autosound designed and manufactured these speakers specifically for 'under seat' or horizontal 'wall' installations. 'Could be used on large 'parcel shelves' - wherever! Compact unit with one 5½" woofer and Piezo tweeter in each enclosure. Under seat fit

for most pre '78 cars and trucks. 120 watt capacity! If you've got the space we have the solution! Each enclosure measures 3" high x 8-1/4" wide X 11-1/4" long.

Sold in pairs  
# Undercover1

### UNDERCOVER II Upgrade Speaker Enclosures

Want a little more from your hidden speaker system? This is it! We have developed the UNDERCOVERII with an 8" woofer and 2 Piezo tweeters

in each box. This system can be mounted in many of the same locations as the regular

UNDERCOVER. With

the 8" woofer in UNDERCOVERII you get a much fuller deeper sound. These are a great addition to our Concours series radios with their 200 watt capacity. Sold in pairs. Measure 11"W x 12.5"D x 3"H

# UndercoverII

## CUSTOM AUTOSOUND SPEAKERS

Replacing original speaker with Custom Autosound stereo speakers is the easiest way to improve overall sound quality. Whether they're in the dash, kickpanels, doors or rear deck we have the right size for you. Includes grills, wire and hardware. (no grills on 3-½" and 4"x6")

These 3-way 6"x9" speakers are rated at 200 watts and come with our exclusive flat metal grill with black finish. They can easily be painted to match your interior or left as is. Full Chrome Speaker Basket; 63mm Ferrite Tweeter &

36mm Neodymium Tweeter, 4 ohm; 16 oz. Magnet, 67Hz - 20 kHz frequency response; Sensitivity 93db # CAM-693C

**CAM-351....** 3.5" 60 watt Dual Cone  
**CAM-402....** 4" 80 watt two way  
**CAM-462....** 4" x 6" 80 watt two way  
**CAM-652....** 6.5" 100 watt two way

# ACCESSORIES

## HIDEAWAY ANTENNA

### AMPLIFIED ELECTRONIC AM/FM ANTENNA (ACTIVE MAGNETIC TYPE)

Designed for optimum AM/FM reception. Excellent solution for Streetrods, Show Cars, Classics or any vehicle where a conventional antenna is not desirable.

Multiple mounting options

No Drilling or Grounding required (radio must be grounded properly)

Requires 12-volt power

104" Power and Antenna Cable

### #ANTUV-HIDE AWAY

**Also Available: Fender Mount Power Antennas**

Fully Automatic Standard Power Antenna #ANTUV-F

Fully Automatic Stubby Power Antenna # ANTUV-STUBBY

## POWER INVERTER/CONVERTER

### Voltage Booster

Operates 12 volt negative ground accessories from 6 or 8 volt negative ground electrical systems. The maximum output power is a function of input voltage. When used in a 6 volt system, it can continuously supply more than 3-1/2 amps with the engine off, and about 5 amps with the engine running at a fast idle. Because of its very efficient design, its current draw is negligible when no load is applied (10 milliamps).

**NOT RECOMMENDED FOR:** Power actuated door locks, trunk release solenoid, air conditioner clutches, fans, blowers, power windows, or other electromechanical devices.

### #NGVB-HC

### Power Inverter

Operates 12 volt negative ground accessories from 6, 8 or 12 volt positive ground electrical systems. When used in a 6 volt positive ground system, it can continuously supply more than 2.1 amps with the engine off, and about 2.5 amps with the engine running at a fast idle. In a 12 volt positive ground system it can supply 4.0 amps (min) and 4.7 amps (max) continuous duty. The PGPI-HC uses a common ground so isolation is not necessary, and because of its efficient design, its current draw is negligible when no load is applied (10 milliamps). **NOT RECOMMENDED FOR:** Power actuated door locks, trunk release solenoid, air conditioner clutches, fans, blowers, power windows, or other electromechanical devices. #PGPI-HC

**Memory Maintenance Module -** For use with NGVB-HC and PGPI-HC. For radios requiring a separate, always "hot" input for memory or clock functions. Part# **MEMMOD**

## NOISE FILTER

If after installing a new stereo system you experience unwanted motor whine or engine noise, check all grounds on radio, amp, antenna, etc. If you still have noise, our filter may help!

### #NONOISE

## PROMOTIONAL

Custom Autosound offers 2 varieties of working or non-working displays. Both can be configured with radios of your choice. Displays can be fitted with one or two radios. Working models include speakers, power supply, antenna, etc. dealer cost of radio(s) plus \$40.00. Non working display units are cost of radio(s) plus \$20.00

One Radio Display Dimensions 24 1/2" wide x 9" Deep x 14" High

Two Radio Display Dimensions 24 1/2" wide x 9" Deep x 20" High

1 Radio Display

Stand up banner available for CAM Dealers.  
Please call, limited quantities available.  
5.5' high x 2' wide includes floor stand.  
May also be wall mounted.
